

1. For installation the ROWE FoldManager do not yet connect the fold system!

2. Insert the ROWE FoldManager installation CD.
3. The ROWE FoldManager installation menu appears after a few seconds (If the "Autorun" function is deactivated, select your CD drive manually and start the autorun.exe).

4. Select Install and press OK.
5. The software installation is being executed now. Follow the instructions on the screen.

6. Shut down the PC after successful installation of the software.
7. Now connect the fold system with your PC.
8. Restart the PC. After the reboot start the ROWE FoldManager Software.

Note:

Have your license key ready for activating the ROWE Fold options you have purchased. You have received the license key separately from the fold system via ordinary mail or e-mail. Install this license key in menu 'LICENSES'.
